Astrological Compatibility

Astrologically, each individual is represented by a chart of the planets and houses at the moment of his birth. By comparing and contrasting the interrelationships of two separate charts, the astrologer can reveal the many ways and many levels that two people relate with each other. This is the astrological art of synastry as it has been practiced for several thousand years.

This report analyzes each of the two selected charts and interprets the astrological connections between them. The charts' data, along with planetary positions and house cusps, are printed on the previous page. There are four possible sections to this report, two for each of the charts. For each individual the two possible sections are: 1) How this person approaches relationships. This section considers only the one chart, and is appropriate for all relationships this individual makes. 2) How this person relates specifically with the second person. Here each paragraph interprets a contact between the two charts from one chart's point of view. The text here pertains to this one relationship only, and should be understood in light of the actual nature of the relationship.

Remember that every relationship contains points of similarity and harmony as well as points of conflict and discord. Through understanding, it is possible to cultivate and encourage the positive and harmonious, and keep relationships growing and fruitful through the highs and lows of the passing years.

Report for John Lennon How You Approach Relationships

You're a real smoothie, refined and ever so facile when it comes to handling other people -- a diplomat. And yet -- despite all of this apparent calm -- you like your partners anything but cool. You can't resist impulsive and action-oriented people -- the more daring, the better. You bring out the recklessness in those you love, and you love it. Although at first meeting one might never suspect this, you love to walk on the wild side.

Aries on 7th Cusp

Relationships tend to be hot and heavy. You are drawn to partners who are aggressive, assertive, and very emotional. Independence and adventure are things you value in others. You tend to depend on your partners to get you motivated and keep you moving. You need someone who is stimulating emotionally.

Mars Ruler of 7th

Without a partner your career may tend to flounder, so it's not likely you will live the single life for long. With you, it's a question of getting in a good relationship and then concentrating on being a success story, and not vice versa. You need a partner that will cheer you on in your work, or at the very least not stand in your way. There is also a tendency to attract people of some stature as friends, with the result that you tend to know the top professionals in your field or social group.

Jupiter in 7th House

You approach relationships with great caution and may even shy away from them. They are not something you are apt to take lightly. If you do enter into one, it is a very solemn business with you, even downright religious. You insist that any bond be a strong one and based on the most serious of reasons. You might just find it easier to join with God and live a religious life than to take a living partner. Not much given to flings, you may prefer to marry late or be involved in a marriage where one partner is much older than the other. Your social life may include priests, ministers, monks, and other very disciplined folks.

Saturn in 7th House

Report for John Lennon Strengths in your relationships

You have always had a drive to delve into the unknown. The cosmos has real trouble keeping secrets from you once you have made your mind up to investigate. You have great perseverance and staying power. You work well in a crisis; emergencies of all kinds find you on the spot, ready to test your mettle. You are brave -- and unafraid of death or people. You do well with investments, property, and other people's money. You have very little sense of propriety and tend to call a spade a spade. You like to get your hands in the real stuff of life, blood and all.

Mars Sextile Pluto (orb: 01 48')

You are enchanting, and can transport a group of people with your mesmerizing words, action, or music. Through you, others catch a glimpse of a world more unified than the one they find themselves in, and hear from you of the life they know exists beyond the mundane. Once under your spell, you could motivate them to do almost anything. You owe much to your upbringing, which tolerated and gave support to your dreamier side. You can be very compassionate, and understand the feminine side of life.

Moon Trine Neptune (orb: 02 01')

You have a knack for coming up with just what the crowd wants. You are nothing else if not an original. You can take an ordinary event and turn it into something brand new, really special. You may have had a somewhat unusual upbringing, and you like a partner who is independent and also a bit unusual. Things are seldom boring with you, for you always have just the right idea of what to do.

Moon Trine Uranus (orb: 02 28')

You are attractive and tend to be physically active. You just might participate in or manage some athletic endeavor. You are in tune with your feelings and really know how to play a crowd for the maximum response. You can always count on support from those around you. You seldom hide how you feel and therefore are no stranger to an occasional argument. You probably got a lot of emotional support as a child, especially from your mother.

Moon Trine Mars (orb: 04 21')

You are, from time to time, really inspired to the point of moving others with your enthusiasms. You exercise an almost hypnotic quality over those who listen in when your imagination takes over. Dreams, psychology, and all things occult and metaphysical are your especial province. You're never afraid to take the plunge when matters of idealism or imagination come to the fore. You feel and experience the unity of life -- that we are all in some way, one. Others sense this about you.

Mars Conjunction Neptune (orb: 06 22')

You have a real drive to discover or invent things. You are always pushing the envelope, going the limit. You know it is at the leading edge where all the real breaks occur. You are fascinated by what is happening in technology and communications. Others find you original and non-conventional, especially in your love life. You have

your own very original idea of love, emotions, and marriage. You march to a different drummer when it comes to relationships.

Mars Trine Uranus (orb: 06 49')

Report for John Lennon Challenges in your relationships

You may have a tendency to poke your nose into others' business. You can't resist, and yet you're often afraid of what you'll find. Skeletons in the closet and sensitive areas of people's lives both fascinate and terrify you. You have trouble just coming right out and dealing with a touchy subject. It puts you through too many changes. You would rather snoop around.

Mercury Square Pluto (orb: 03 48')

Everyone would agree that you make a good critic, although not everyone would agree that you are always fair. You don't like opposition. In conversations, you may find yourself squelching others' points of view. You have great mental endurance and tend to involve yourself in projects that most would find tedious. You like repetitive work.

Mercury Opposition Saturn (orb: 05 16')

You think you can get around doing things as you know they are supposed to be done. These shortcuts end up costing you a lot. You also tend to bite off more than you can chew and can have a million projects going at once. You get carried away with yourself easily in arguments, and those close to you sometimes accuse you of not being entirely fair with them.

Mercury Opposition Jupiter (orb: 05 46')

You have always felt vulnerable when deep emotional issues are brought up, and may have a history of avoiding confrontation and self-examination. You are ever so sensitive to ideas of death, helplessness, and vulnerability in general. You see them only too well, and they haunt you. There may well be some childhood experiences that were rough or harsh for you to accept. Any partner will have to tread very gently when it comes to matters of feelings and security. You may tend to dominate a relationship, but without success.

Moon Opposition Pluto (orb: 06 09')

You could have a fear of the new and different -- of sudden changes. However, once they occur you really get a charge out of them. You would like to break away and live an unusual, exciting existence, but your conventionality holds you back from making the move. The result is that you often feel frustrated and mired in the humdrum. Jealousy in love affairs could present a problem.

Venus Square Uranus (orb: 07 09')

You don't always say just what you mean. For that matter, you may sometimes not even know how you feel about something. You tend to envy people who can always put their finger on how they feel. It can be hard for you to talk about your feelings. Any partner will have to understand this about you. Are you often moody? Yes, probably.

Moon Square Mercury (orb: 09 57')

Report for John Lennon **Your Relationship with Paul McCartney**

You find Paul supportive when it comes to matters of your career. He understands where you are headed and how it is best to go about developing your practical and vocational side. With his help, you can make great strides in your managerial ability. He has an instinctual sense of your capabilities (of what you would do best) and he can't help but nurture you in these matters. He might be instrumental in getting you out of the closet and into the public eye.

His Moon in Your Tenth House

Paul may have appeared first as a teacher, guide, or instructor. In particular, he represents someone who shares your thoughts on religion, philosophy, and other matters of the spirit. Late night talks extending into the wee hours are likely. These long talks could end in long walks or trips together. You really would enjoy traveling together. Here is someone who appeals to your deeper, more reflective side. This relationship has an honest, direct feel to it.

His Sun in Your Ninth House

Here is someone with whom you can share your deepest fears and hopes. There are no secrets between you. It tends to just come pouring out whenever the two of you sit down for one of your long talks. There was an instant understanding between you from the first time you met. Your friendship did not require time to develop. There is no shyness between you. Paul's frankness extends beyond any emotional ties. You can discuss business ventures and career possibilities, and count on good advice.

His Mercury in Your Eighth House

He finds you more intense than just magnetic. You felt this quality from the first. His appreciation for you is quite bare and direct. It cuts through words and needless explanations. You can't resist. It's as if he already knows the real you and likes what he finds. He handles the most sensitive areas of your personality without even asking your permission. He knows what to do. A very active friendship.

His Venus in Your Eighth House

Paul is on a one-person campaign to bolster your career and public image. He seems to know which way you are headed and wants to give you a boost in that direction. He is very ambitious when it comes to your career and is always pushing to improve your prospects. Although this can be tiresome, and you may not always be in the mood for improvement, it is mostly beneficial. He really does know what he is doing.

His Mars in Your Tenth House

Paul may be a real leader or inspired teacher for you. Through him you may discover a more philosophical and religious side of yourself. You respect his integrity and judgment, and have no trouble following his lead, because he is always fair and knows the right way to handle things. You may have long walks and long talks. Traveling somewhere together would be ideal. He tends to open up your mind to new horizons, perspectives, and possibilities.

His Jupiter in Your Ninth House

It may be hard to get personal with Paul, and this may be a toughy if you're thinking about doing business together. You may feel tied down and unable to work efficiently or profitably. You may lose sight of what is essential in any personal or business venture. You could accumulate debt. Not a traditional sign for a good business relationship.

His Saturn in Your Eighth House

Paul is very direct. He seems to cut to the very heart of a situation, which sometimes leaves you feeling exposed and vulnerable. Yet time spent with him can be terribly exciting. You find yourself wanting to get rid of a lot of excess social baggage when you two are together. You may tend to spend a lot of time alone due to the very sensitive and open relationship you share. He may be able to lead you into making some very shrewd and innovative business deals.

His Uranus in Your Eighth House

Your friends may find Paul enchanting. He brings an almost otherworldly quality into your friendships, partly due to his strong idealism and eloquence. He could have the effect of uniting a group around their common center of interest. Music and the arts come to the fore. At times you may feel this relationship has an unreal quality to it, that it lacks all sense of practicality.

His Neptune in Your Eleventh House

Paul exercises a very powerful influence over you, one that could change your career. Here is someone who knows more about what you ought to be doing with your life and career than you do, and he is not afraid to let you know about it. From the first time you met, he probably jumped right into your business and started making suggestions -- and they were right on the money. The net result is that you may go through a major transformation as to what you do with your life through knowing him.

Report for John Lennon

Challenges in your relationship with Paul McCartney

Timing could be off between the two of you. Your drive and ambition fail to link up with his ideas of career and success. You may feel that he is not a good decision-maker and tends to squander your assets.

Your Mars Square His Jupiter (orb: 00 33')

You may not appreciate his sense of independence, always having to do something different and unusual. You don't like surprises. It may go against your own set of values and thus be a cause for dissension.

Your Venus Square His Uranus (orb: 00 45')

He may have a tendency to throw cold water on your enthusiasms and hurt your feelings. You may not take his problems seriously enough to suit him, and he may tend to restrict your natural sense of love and appreciation. There is cold-war tension to this relationship.

Your Venus Square His Saturn (orb: 02 29')

There may be some problems due to a lack of communication. There is an unwillingness on your part to discuss Paul's changes (what he is going through). You may prefer not to comment on sensitive issues, instead of the constant rehash. The resulting confrontations may be hectic and intense.

Your Mercury Square His Pluto (orb: 03 42')

There are a lot of hurt feelings in this relationship. Argument and power struggles are to be expected. You tend to ignore, or not be sufficiently supportive of, Paul's feelings. He can't help but get in digs at you on a regular basis.

Your Moon Opposition His Mars (orb: 04 39')

Harsh words and arguments may not be uncommon. He tends to irritate and get pushy, with the result that you may get sharply critical and say more than you intended. Your analysis of his feelings may drive him a little crazy.

Your Mercury Square His Mars (orb: 05 18')

The two of you may tend to get very emotional, and you could clash over many issues. He may feel that he doesn't get enough support from you, and that you are pushy and aggressive. You may not feel like pouring a lot of energy into his needs and demands.

Your Mars Square His Sun (orb: 05 46')

The fact that you find it difficult to put up with his need for confrontation and self-analysis may cause resentment. Your lack of support in this area may lead to explosive times and hurt feelings. You are tired of the tension and don't feel like putting your emotions through one more transformation.

Your Moon Opposition His Pluto (orb: 06 14')

It's no secret that you and Paul can have communication problems. You may find his lack of support for what you say and think unfair and hard to accept. Yet it is a two-way

street -- often your thoughts and ideas rub him the wrong way too. They are contrary to the way he feels about things, and he finds it difficult to be encouraging at times.

Your Mercury Square His Moon (orb: 09 33')

Report for Paul McCartney How You Approach Relationships

You're a demon for details. There is no question in anyone's mind that you have got it all together, at least from an organizational standpoint. You are indeed cool, calm, and collected. Yet there is something missing. You yearn for contact and involvement. You need something to do and someone to care for. Talk about loving punishment -- you feel responsible for just about everyone, and tend to end up with some pretty hopeless cases. And we're talking major dreamers here. You can't resist them -- the woollier, the better. They need your help and can't seem to help themselves. The funny part is that you love it, and them!

Pisces on 7th Cusp

You have a penchant for dreamers, mystics, and the highly imaginative. You love to get carried away romantically, and your friends may find you are unrealistic and often disappointed. You like love right out of a romance novel, complete with a sense of mystery and otherworldliness. You value imagination in a lover, and probably love movies and music.

Neptune Ruler of 7th

Report for Paul McCartney Strengths in your relationships

You have your own very original idea of love, emotions, and marriage. You march to a different drummer when it comes to relationships.

Mars Sextile Uranus (orb: 00 43')

You communicate very well, and it is easy for you to give others a feeling for whatever you're thinking. You tend to believe that there is almost no problem that cannot be handled with words, by talking it out. You could be a fine speaker. Your natural sensitivity for the feelings and thoughts of those around you makes you a valued community member. Needless to say, you want a partner who is at home with feelings and -- above all -- likes to talk.

Moon Sextile Mercury (orb: 00 50')

You have always had a drive to delve into the unknown. The cosmos has real trouble keeping secrets from you once you have made your mind up to investigate. You have great perseverance and staying power. You work well in a crisis; emergencies of all kinds find you on the spot, ready to test your mettle. You are brave -- and unafraid of death or people. You like to get your hands in the real stuff of life, blood and all.

Mars Conjunction Pluto (orb: 01 35')

You are very skilled and exhibit great artistry in whatever you do. Your work is always well organized and efficiently produced. You are driven to accept more and more responsibility, which is not a burden to you. This is a sign of excellent managerial ability. You're in it for the long haul and are a good example of what real discipline looks like.

Mars Sextile Saturn (orb: 02 31')

You have an uncanny sense of justice coupled with an innate ability to interpret the law, whether manmade or natural. This may manifest thru your showing others the way thru, or beyond, the problems in their lives. A practical sense of how to manipulate the opportunities that appear in life. Just plain luck! A natural love for those with more experience or authority. A teacher, or benefactor, is likely.

Sun Conjunction Jupiter (orb: 05 13')

Challenges in your relationships

You may have a fear of taking the plunge, letting go. Perhaps you are hesitant to trust your vision or your dreams, lest they overpower your day-to-day routine. As for relationships, you tend to worry about being deceived. There is tension present as to just how much you dare trust your more mystical side. Perhaps you have been disappointed by authority figures, more due to your over-idealizing them than to their own faults.

Sun Square Neptune (orb: 00 30')

You have mixed feelings when it comes to other people. You can't live with them and you can't live without them. You are used to a high degree of emotional tension. People may misinterpret your emotional chargedness as aggression or disapproval, when in fact that's just the way you are. They may not support your values. You long for a smooth relationship, but if you look at your history it's been a rocky road indeed. You may have trouble locating an environment where you feel comfortable and can flourish.

Moon Square Venus (orb: 01 28')

Report for Paul McCartney Your Relationship with John Lennon

You probably felt at home with John right from the start. You enjoy doing things together. It feels natural and good. It occurs to you that this relationship could last a while. He feels almost like a member of the family and does a lot to bring out your more domestic side. The two of you might cater to the public or run a business from one of your homes.

His Moon in Your Fourth House

Your meeting John was exciting and action oriented. In many ways, you are two of a kind. Chances are that you identified with him at once. After all, he is very much like yourself -- like looking in a mirror. Just the person to draw you out of yourself and get you doing things. He may have brought a sense of adventure and risk into your life. You found yourself doing things with him, daring to live, and making a statement. You found yourself really coming across with him, being all that you can be. As corny as this sounds, the world has really been more responsive to you since you met John.

His Sun in Your First House

He becomes very articulate when it comes to matters concerning your finances, resources, and possessions in general. You feel that he truly is concerned with what is best and most productive for you. Here is someone you can really talk to about subjects that most might find dull and unexciting. You find his suggestions to the point and almost always productive. You might like to take him on as a business partner just for his financial insight.

His Mercury in Your Second House

John may have noticed you because of the friends and acquaintances you have. He values shared goals and common ties, in particular if they have some kind of moral or humanitarian purpose. You may work and live together as part of a project or community. You may be just friends and never business partners. He has a sense of your hopes and dreams, and loves you for them. He finds your friends uplifting and worthwhile.

His Venus in Your Eleventh House

John is nothing else if not stimulating, and he may be downright challenging or irritating at times. It all depends on what mood you're in. If you need a boost, a little competition, then he is tailor-made for the job. If things are already hectic, then you may not enjoy the ride. There is the potential here for a good friendship too.

His Mars in Your First House

The two of you relate very directly with one another. He may have led the way in this regard. There are no secrets between you. All of the superficial is quickly brushed aside, and words are not always needed between you. There is an intense side to this relationship. John could be an excellent business partner for you. He has good sense and a nose for what counts and is worthwhile.

His Jupiter in Your Eighth House

It may be hard to get personal with John, and this may be a toughy if you're thinking about doing business together. You may feel tied down and unable to work efficiently or profitably. You may lose sight of what is essential in any personal or business venture. You could accumulate debt. Not a traditional sign for a good business relationship.

His Saturn in Your Eighth House

John could be a teacher for you -- sort of a life teacher or guide. Not what you would call a tranquil relationship, it may be subject to fits and starts. When you are with him, you may experience real insight into the nature of life -- spiritual ideas. He has unusual and possibly quite radical views of religion. His approach is what is so different. It is possible that through him you discovered an entirely new way of looking at your life and the world. It's on again, off again.

His Uranus in Your Ninth House

This relationship is potentially a very useful one. Through John you get a real sense of self-sacrifice and working for the benefit of all mankind. You may be swept up in an almost dreamlike state, able to be very forgiving and understanding. You may feel a little saintlike. On the down side, the whole thing can find you carried away to the point of neglecting the realities of life. You might give all your possessions away. Who knows if that would be a good or a bad thing?

His Neptune in Your Twelfth House

He is very dynamic, and you probably met him in a group of friends or at a community function. He may instantly set about forming a new group of friends for you to hang around with, or he may advise you on which groups and projects are really worthwhile. John will strip away a lot of needless social niceties. Through him you may be exposed to a more radical form of politics or group goal than heretofore. He is very serious about all of this.

His Pluto in Your Eleventh House

You are always 100% behind John. You would make a great campaign manager, and this could also be a good business partnership. You can't help but be supportive of his needs, and he feels that he can always count on you.

Your Moon Sextile His Sun (orb: 01 42')

You find it easy to talk to (sometimes at) John, and you think about him a lot. He encourages you mentally, and may support some communication project you are involved in -- speaking, writing, etc.

Your Mercury Trine His Sun (orb: 02 31')

Aside from any magnetism, this could result in a sound business relationship. You value John's judgment and, more often than not, tend to let him act as your guide in matters of career and direction. He knows you appreciate his abilities, and this combination should be an enduring one.

Your Venus Conjunction His Jupiter (orb: 05 16')

You have a natural appreciation for his problems and are probably very understanding with him. You may love his sense of organization and self-discipline. You may be a trifle undemonstrative when you are around him, a little too sober perhaps.

Your Venus Conjunction His Saturn (orb: 05 45')

You value his independent ways. You love how he is often surprising you, and doing new things to get your attention. You always respond with warmth and appreciation. You feel that he values your ideals, knowing they are unique.

Your Venus Conjunction His Uranus (orb: 06 34')

You value his dreams and idealistic nature. There is an almost otherworldly sense that develops when the two of you get intimate -- your own magic bubble. He enchants you. Movies, music, and moods are something you can enjoy together.

Your Venus Trine His Neptune (orb: 07 01')

This is about as close to a mutual admiration society as any two are likely to get. John is very supportive of your values and ideals. You might even feed on this. You have always felt simple admiration and appreciation for him. You just like the way he is.

Your Venus Trine His Moon (orb: 09 02')

Report for Paul McCartney **Challenges in your relationship with John Lennon**

He may feel that you don't take his ideals seriously enough, and that you discount his more imaginative and creative side. You may feel that he is unrealistic, only fooling himself, and is always getting carried away with one thing or another. There could be deception.

Your Sun Square His Neptune (orb: 00 36')

John may feel that he doesn't have your support when it comes to matters of career and life direction. There may be hard feelings. You may find the decisions he makes upsetting to you emotionally. His basic philosophy of life can sometimes be at odds with the way you are feeling.

Your Moon Square His Jupiter (orb: 03 48')

You may find him somewhat repressive of your feelings. He manages to put a damper on you every time you get to feeling good and comfortable. There is no way you will support this side of him, and this could lead to a real standoff.

Your Moon Square His Saturn (orb: 04 17')

Heavy feelings and emotional drama will be a part of this relationship. You may feel that he refuses to support your life ambitions. You may find yourself hurting his feelings again and again. A stormy friendship.

Your Mars Opposition His Moon (orb: 04 39')

John refuses, or is often unable, to get your meaning. He may feel that your own feelings are lacking as a motivating force in your life. This can lead to harsh exchanges and hot tempers.

Your Mars Square His Mercury (orb: 05 18')

You may tend to ignore John's feelings, resulting in arguments and clashes of wills. Your relationship tends to run hot and cold, but when you're hot you are very good friends. There may be some hard feelings between you.

Your Sun Square His Mars (orb: 05 46')

Problems could arise from John's feeling that you have no sympathy for his dreams and ideals -- his more imaginative side. Perhaps you just refuse to discuss these aspects of life with him. Whatever happens, it makes for some disappointing situations. You may not be able to think clearly when you are together.

Your Mercury Square His Neptune (orb: 07 39')

John's feelings of independence, and his unusual ways, tend to rub you the wrong way at times. You refuse to support his oddball ideas. He may find you restricting and unimaginative. There is definite disagreement here.

Your Moon Square His Uranus (orb: 08 02')

From time to time there may be some hard feelings and harsh words between you. You may not feel like talking, or find that you can't support a lot of what he is saying. He may not be able to understand how you feel, and resents your attitude.

Your Moon Square His Mercury (orb: 09 33')
